

**Available in 20 kg and
a convenient 10 kg
for travelling horses**

EZY®

- ✓ A versatile, slow-release energy, forage fibre for all horses
- ✓ Fresh cut lucerne (60%) and equine specialty grass – timothy (40%)
- ✓ Unique blend of high nutritional forage fibres
- ✓ Moderate protein and energy
- ✓ Very low in starch and sugar

Fiber Fresh Ezy® is a moist, highly digestible blend of forage fibres comprising lucerne and the equine specialty grass timothy.

Timothy grass is high in dietary fibre, lower in soluble carbohydrates than other common grasses and is known to facilitate better digestion, gut function and overall digestive health in horses.

Ezy® is a well-balanced multi-forage fibre providing good levels of digestible energy, protein and minerals. It is recommended when increased fibre feeding or a consistent slow release energy source

are the objectives and when high levels of energy are not required.

Ezy® can be fed alongside or substituted for fresh pasture/hay feeding or mixed with concentrate feeds as a high-quality forage fibre source. *Ezy®* is ideal as the primary forage feed to aid in the management of metabolic and digestive health in horses. It is a common-sense fibre choice for a calm and steady performance or for horses sensitive or prone to laminitis, or those convalescing or recovering from surgery.

Ezy® is completely safe as a consistent base forage and is suitable for all horses.

TYPICAL ANALYSIS (as fed)

Nutritional Juices (as fed) %	55.0
Crude Protein %	17.2
Acid Detergent Fibre (ADF) %	33.1
Neutral Detergent Fibre (NDF) %	46.2
Ash %	9.1
