

START®

- ✓ Fresh cut lucerne
- ✓ Greater efficiency and absorption of nutrients
- ✓ Develops heavier, stronger rumens and supports papillae formation
- ✓ Better performing, healthier ruminants
- ✓ Highly digestible protein: 20%

High nutrition fibre for ruminants

Fiber Fresh Start® is a moist, high nutritional forage fibre comprising pure fresh cut lucerne designed to give ruminants the best possible start to be healthy and more productive. *Start®* will take ruminants from being totally milk reliant to ones that thrive and develop to their full potential with no weaning check.

Start® begins full stomach development and promotes rumen growth while at the

same time improving enzyme activity and establishing correct microflora (bacteria) populations.

Start® is an easily digested fibre that allows the animal to follow a natural path of development and provides quality essential protein for sustained growth. Ruminants will develop heavier, stronger rumens, and will ultimately be better performing healthier animals.

Ingredient Composition: Lucerne (alfalfa).

TYPICAL ANALYSIS Dry Matter Basis

CRUDE PROTEIN	20.0%
CRUDE FAT	2.9%
CRUDE FIBRE	27.0%
CALCIUM	16.7g/kg
SELENIUM	0.06mg/kg
SODIUM	0.2g/kg
METABOLISABLE ENERGY (ME)	11.5MJ/kg
NUTRITIONAL JUICES (AS FED)	55%

The Metabolisable Energy (ME) values are calculated by a registered laboratory from an equation and are not measured in-vivo or in live animals. Therefore they are only a guide for predicting the energy content of a feed.

Fiber Fresh products are available from quality equine and rural suppliers nationwide.
