

The only product registered with ACVM to protect and heal ulcers in horses

PROTECT[®]

- ✓ Fresh cut lucerne with *Xanotylde*^{®*}
- ✓ Helps maintain gastric health in horses
- ✓ Highly digestible quality protein to build muscle and immunity
- ✓ High in digestible energy, but very low in sugar and starch
- ✓ Improves top-line and condition

Fiber Fresh Protect[®] is a moist, high energy, highly digestible forage fibre feed comprising pure fresh cut lucerne, ideal for all horses requiring top quality forage.

A good source of calcium and other minerals, it also features high levels of digestible protein, lysine and other amino acids which together are essential for vital functions including growth, reproduction and immunity in the horse.

We recommend *Protect*[®] when higher levels of digestible protein, essential amino acids and increased muscle development for better top-line condition are required.

Protect[®] helps maintain gastric health in horses. It can be fed on its own to either support pasture/hay feeding, as the primary forage, or together with grain/cereal-based concentrate feeds.

Protect[®] is especially effective in helping avoid digestive discomfort and gastric disorders associated with grain/concentrate feeding and can help improve digestive function and gastric health in all horses.

Protect[®] is completely safe, consistent and ideal as the quality forage in the ration of all horses.

TYPICAL ANALYSIS (Dry Matter Basis)

Nutritional Juices (as fed) %	55.0
Crude Protein %	21.5
Acid Detergent Fibre (ADF) %	27.5
Neutral Detergent Fibre (NDF) %	36.1
Ash %	11.5
Soluble Sugars & Starch %	<3.5
Crude Fat %	2.8
Vitamin E mg/kg	42
Lysine g/kg	9.3
Methionine g/kg	2.7
Biotin µg/100g	8.7
Phosphorus %	0.25
Potassium %	2.20
Sulphur %	0.32
Calcium %	1.40
Magnesium %	0.20
Sodium %	0.03
Iron mg/kg	120
Zinc mg/kg	30
Copper mg/kg	9.0
Manganese mg/kg	39
Boron mg/kg	16
Molybdenum mg/kg	1.01
Cobalt mg/kg	0.10
Selenium mg/kg	<0.02
Chloride %	0.75
Digestible Energy* DE MJ/kg	10.8

RECOMMENDED DAILY FEEDING RATES For general health (as fed)

LIGHT WORK (resting/pleasure)	2kg – 4kg
MODERATE WORK (show-jumping/dressage/eventing)	4kg – 6kg
HEAVY WORK (racing, endurance)	4kg – 6kg
GROWING HORSES AND PREGNANT MARES	2kg – 6kg
BREEDING STALLIONS	4kg – 6kg
LACTATING MARES	4kg+

* DE has been determined by scientific feeding trials with horses.

ULCER MANAGEMENT Daily feeding guide (as fed)

	ULCER HEALING	ULCER PROTECTION
FEEDING RATE (per 100kg bodyweight)	3kg	1.75kg
EXAMPLE: 500kg	15kg	8.75kg

* *Xanotylde*[®] is made up of natural ingredients and supports our Controlled Fermentation process. The actual formulation of *Xanotylde*[®] is confidential and unique to Fiber Fresh, however all ingredients are natural and safe.

Fiber Fresh products are available from quality equine and rural suppliers nationwide.
